

## Partner Social Media Content: April 2026

---

### Tips to make the most of the sample social posts:

1. Schedule the posts and, if needed, upload the photo/graphic to the social platform. When sharing the blog content, an image and link to the blog should automatically appear on most platforms. For any graphics or downloads you wish to share, you can attach them directly to the social media post. If you have any issues or would like the content in different dimensions, please don't hesitate to contact us.
2. We've included social media handles and hashtags in these posts, but these can vary depending on the platform(s) you plan to post on. Certain platforms also have character limits where you might need to shorten this copy. Please double check that you're tagging the correct pages and/or using hashtags on the appropriate platforms. Veteran Saves official handles are @VeteranSaves1 on Facebook and @VeteranSaves on X (Twitter) and LinkedIn.
3. Make this content customizable to your audience! While we consciously chose our content to be diverse in several ways, please feel free to swap out our proposed imagery with any content you feel will best resonate with your community.

If you have any questions, please don't hesitate to reach out to us at [save@americasaves.org](mailto:save@americasaves.org).
